

Empowering Event Experiences Through Web3

A Decentralized Event Ecosystem
Powered by Community and Innovation

Version: 1.5.2

Last Update: April 1, 2024

LITEPAPER

WWW.FAVOURSE.COM

Abstract

The global event management industry, valued at over \$1 trillion, currently sees less than 15% of revenue directly benefiting event creators and organisers. Favourse aims to disrupt this imbalance utilizing blockchain's power, Favourse introduces a transparent, equitable system that revolutionizes event management, from NFT ticketing for secure, personalized experiences to enabling creators to reap the benefits of digital collectibles. At its core, Favourse's innovative model is built on four pillars: Crowdvoting, Event Stakeholder Matchmaking, Crowdfunding, and Referral Marketing. These foundations actively engage the community, empowering users to shape events, drive fair profit distribution, and foster a collaborative event ecosystem. Favourse is the vanguard of an inclusive, profitable, and engaging event industry transformation.

Introduction

Brief Description of Favourse

Favourse is a blockchain-powered event management platform that revolutionizes the way events are organized, promoted, and experienced. Our inclusive ecosystem connects event organizers, partners, and attendees, fostering collaboration, enhanced engagement, and a strong sense of community.

The Vision and Mission of the Project

Our vision is to become the world's leading decentralized event management platform, driven by community and powered by cutting-edge technologies. Our mission is to simplify event organization, enhance attendee experiences, and cultivate a thriving Web3 event landscape.

Importance of Favourse in the Current Market

Favourse addresses the rising demand for transparent, secure, and collaborative event solutions. The global event industry, valued at over \$1 trillion, holds immense potential for transformation through Web3 innovations in ticketing, engagement, and funding. We offer a compelling solution tailored to this evolution.

The Favourse App

App Overview

The Favourse app is a user-centric platform seamlessly integrating event discovery, planning, management, and attendance. Its intuitive interface blends powerful Web3 tools with Al-driven enhancements for streamlined experiences.

Hero Feature: NFT Ticketing Revolution

Favourse transforms ticketing with NFT technology, providing ownership proof, combating fraud, fostering secondary markets, and unlocking ongoing benefits for organizers.

Key Features and User Benefits

- Organizers: Event creation tools, NFT ticketing, audience analytics, sponsorship management, fundraising options, and rewards for driving engagement.
- Creators/Speakers: Fan engagement features, monetization of expertise, direct interaction with audiences, and reputation building.
- **Brands/Sponsors:** Audience targeting, data-driven insights, sponsorship activation tools, and measurable campaign tracking.
- Participants/Fans: Personalized event recommendations, opportunities to shape events, exclusive content access, gamified experiences, and rewards for participation.
- Venues: Smart-booking systems, streamlined communication, event analytics, and reduced risk of cancellations.

\$FAV Token

What is \$FAV?

\$FAV, the native token of the Favourse ecosystem, is essential for transactions, governance, rewards, and unlocking exclusive content and benefits within our platform.

Token Utilities and Benefits for Holders

- Gas: \$FAV tokens are essential for covering transaction fees within the Favourse platform. This payment mechanism ensures smooth operations for all event-related activities and platform interactions.
- Staking: Stake your \$FAV tokens to actively support the Favourse platform. Earn rewards for your contributions while helping to strengthen the network's security and overall success.
- **Treasury:** Holding \$FAV tokens grants you the right to propose and vote on initiatives related to the Favourse treasury.

The Role of the \$FAV Token

The \$FAV token plays a pivotal role in the Favourse ecosystem, incentivizing participation, rewarding contributions, and enabling community governance. Token holders benefit from:

- Exclusive Access: Unlock premium features, event discounts, and participation in platform development decisions.
- Community Engagement: Earn rewards for event attendance, content creation, referrals, and other interactions.
- **Treasury:** Participate in key decisions that shape the future of Favourse. Holding \$FAV tokens grants you the right to propose and vote on initiatives related to the Favourse treasury.

Tokenomics

Token Supply Details

- Max Supply: The total number of \$FAV tokens is fixed at 250 million. This means
 no more \$FAV will be created after this, securing its value over time.
- Supply at Genesis: When Favourse was launched, we had 28 million \$FAV tokens ready for use.
- Current Circulation: Right now, there are 16.6 million \$FAV tokens available to our users, providing liquidity and facilitating transactions on our platform.

Token Allocation Breakdown

- Funding Rounds: Our initial funding rounds (Private Seed, Seed, Private Sale, Pre-Sale, Launchpad) collectively account for 16.8% of the total supply, with progressive token pricing from \$0.020 to \$0.060, raising a total of \$2 million.
- Ecosystem, Rewards & Marketing: The largest allocation of 35.2% fuels the ongoing engagement and growth of our platform.
- Team and Development: 9% is reserved for the team, supporting their hard work behind the
- Advisors & Partnerships: Another 9% goes towards advisors and partners who help us expand and improve Favourse.
- Treasury: 5% is held in treasury, earmarked for strategic decisions and future initiatives.
- Liquidity: Lastly, 25% is allocated to ensure ample liquidity, facilitating smooth transactions for users.

Token Transparent Allocation and Distribution

Fair Distribution: We have an equitable allocation strategy that is transparent and fair:

Seed Investors

Public Sales

Team and Advisors

Ecosystem and Platform Development

Token Vesting and Release

At Favourse, we've tailored a vesting schedule that ensures a responsible and strategic release of \$FAV tokens. This approach is designed to protect the market and align with our platform's development phases. Here's a snapshot based on the data provided:

Early Stages

Initial Rounds (Private Seed to Launchpad): Tokens from our early investment phases, representing 16.8% of the total supply, are priced from \$0.020 to \$0.060. We release these gradually to maintain a healthy market, starting with a 8.89% release at the Token Generation Event (TGE), followed by a 9-month linear vesting period. This methodically introduces \$FAV into circulation while supporting initial platform growth and avoiding market shock.

Ecosystem Incentives

Rewards & Marketing: The bulk of our tokens, 35.2%, is allocated for ecosystem incentives. These tokens are vested over 36 months post-TGE. This long-term plan supports sustained engagement and the rolling out of new features, ensuring that rewards are distributed as our community grows.

Foundational Support

Team & Development and Advisors & Partnerships: Both these crucial groups have 9% of the total tokens set aside, with no initial unlock at TGE. For the team, there's a 1-year cliff followed by a 24-month linear vesting. Advisors and partnerships follow a 24-month vesting schedule. This guarantees that our core contributors are committed to Favourse's long-term success.

Strategic Reserves

Treasury: 5% of tokens reserved for our treasury are vested after a 1-year cliff, with a 6-month linear vesting period thereafter. These tokens are used to steer Favourse's financial and strategic direction wisely.

Liquidity Assurance

Liquidity Pool: A quarter of our tokens are dedicated to liquidity, with 100% available at TGE. This ensures that users can easily trade \$FAV tokens, providing the necessary liquidity for a thriving token economy from the outset.

Token Release Roadmap

- At Launch: Up to 31% of tokens will be in circulation, ensuring an active market presence.
- Annual Growth Alignments:
- First Year: Cap increases to 52%, in step with user base growth.
- Second Year: Grows to 77%, aligning with platform developments.
- Third Year: Reaches 86%, indicating a robust economy.
- Full Circulation: After 4.5 years, we will achieve full token circulation, concluding the distribution phase.

Funding and Future Outlook

Fueling the Growth of Favourse

Favourse is on a mission to decentralize and elevate the event management landscape. Securing early-stage funding is crucial to achieving this vision. Here's a breakdown of our funding status and roadmap:

#	Round	Total Tokens (%)	Number of Tokens	Token Price (S)	TGE Unlock	Valuation	Unlock Schedule
1	Private Seed	2.40%	6,000,000	\$0.020	0%	\$5,000,000	After TGE: Cliff 2 weeks, 9 months linear vesting
2	Seed	3.20%	8,000,000	\$0.030	0%	\$7,500,000	After TGE: Cliff 2 weeks, 9 months linear vesting
5	Launchpad	16.40%	41,000,000	\$0.040	20%	\$10,000,000	After TGE: 9 months linear vesting
6	Ecosystem, Rewards & Marketing	35.00%	87,500,000		2.78%		After TGE: 36 months linear vesting
7	Team & Development	9.00%	22,500,000		0%		After TGE: 1 year cliff, 24 months linear vesting
8	Advisors & Partherships	9.00%	22,500,000		5.00%		After TGE: 20 months linear vesting
9	Treasury	5.00%	12,500,000		0%		After TGE: 6 months cliff, 24 months linear vesting
10	Liquidity	20.00%	50,000,000		2.67%		Perpetual

Total Supply: 250,000,000

Fully Diluted Market Cap: \$15,000,000

Initial Market Cap: \$1,000,095

Pre-Seed Success and Investor Confidence

Favourse has successfully secured a significant portion of its pre-seed funding round, backed by established industry leaders, including:

Meinhard Benn
Chairman SatoshiPay &
Co-founder Pendulum

William Sutanto
CTO & Co-Founder of Indodax

Adrian Zakhary
Founder of Majalabs

This strong support showcases confidence in Favourse's model and market potential.

Strategic Use of Funds

Pre-seed funds will be strategically deployed to power Favourse's development and expansion:

Accelerated Platform Development

Prioritizing the implementation and refinement of essential features to ensure a robust user experience.

Market Penetration and Partnerships

Establishing collaborations with high-profile event organizers, industry players, and communities to increase adoption and visibility.

Global Expansion

Fostering international community growth through targeted marketing initiatives and localized outreach.

Conclusion

The Favourse Advantage

We are pioneering a decentralized event industry infrastructure empowering stakeholders at every level. Our technology-driven model fosters innovation and delivers tangible benefits for organizers, creators, businesses, and attendees.
